

I really like Wonder because it is all about a boy named August who goes to school for the first time! And it seems like a real life story that could happen. It was also voted best book in y school. Wonder is part of a series. Other books are Auggie & Me and 365 Days of Wonder. It also is pretty funny and just fun to read.

The Mysterious Benedict Society was one of my favorite books as a young adult. The characters are amazingly endearing and the story is fast-paced but fun. A book you'll read in one sitting.

I love the book Spy School because it has a lot of excitement in it. There is an underground tunnel and the mole for the bad guys is actually Ben's very first friend at Spy School. Ben Ripley is the main character in the book. At Spy School, there is a group that is full of bad people that is called SPYDER. I loved this book and I think that everyone should read it.

In the book the Raft the main  
Character Robie got on a plane  
then a big storm hit and she got  
stranded on a raft. Max the only  
other survivor had a bag of skittles  
and that was all there food.  
Also there were tiger sharks  
every where

# Rules by Cynthia Lord

When I read RULES I was touched. I felt like I was right in the story. I felt the feeling of sadness when the characters were sad. I am so glad I read this great book.

Miss Peregrine's Home for  
Peculiar Children is one of my favorite  
books. I liked it when there are cliffhangers  
and my eyes are peeled. My favorite character  
is Emma Blam. She is brave and she can  
make fire from her hands. Emma likes to help  
Jacob, the main character find the rights. I could  
recommend this to 11-14 years because there is  
mild violence ~~and~~ and I just recently got  
the 2nd book and hoping to see the movie.  
And I hope you enjoy this book. 

# Nature Girl by Jane Kelley

I loved the book Nature Girl because it showed me to be brave and self-confident. When Megan gets lost on the Appalachian Trail, she is brave and does not give up. I am so glad I read this book.
